Re: 10/511657

Please carry out the following sequence searches:

1. A standard search of nucleic acid SEQ ID NO:3.

2. A score over length search of SEQ ID NO:3, looking for hits of between 15 and 30 nucleotides in length with 100% match to the target.

In each case, please provide alignments for all 100% hits.

Thanks,
